SUMMARY

Full-stack software engineer with 3+ years of experience building backend APIs and web applications with Node.js, TypeScript, React and PostgreSQL/MongoDB on AWS. Experienced in owning features end to end, from system design and database modeling to deployment, and in optimizing query and application performance. Comfortable in Agile teams and in ambiguous, startup-style environments.

SKILLS

Languages: TypeScript, JavaScript, Java, C/C++, SQL
Backend & APIs: Node.js, REST APIs, tRPC, Prisma ORM, JWT authentication
Frontend: React.js, Next.js, Material UI, Tailwind CSS
Databases: PostgreSQL, MySQL, MongoDB
Cloud & DevOps: AWS, Git/GitHub, CI/CD, Agile/Scrum
Fundamentals: Data Structures & Algorithms, System Design, Object-Oriented Programming, Operating Systems, Computer Networks

WORK EXPERIENCE

Accenture | Software Development Engineer (Full Stack) | 02/2026 - Present

- Develop full-stack features using React and Next.js on the frontend and Node.js and TypeScript on the backend, from requirement analysis through development, testing and deployment.
- Design and build REST APIs, database schemas and authentication flows backed by PostgreSQL/MongoDB.
- Troubleshoot and fix issues across the frontend, backend and database layers, and write clean, maintainable, tested code.
- Collaborate with cross-functional teams in an Agile workflow, including code reviews, sprint planning and release support.

Oriserve, Noida | Associate Software Development Engineer | 02/2025 - 02/2026

- Diagnosed and fixed production issues by reproducing bugs, tracing root causes across frontend and backend, and shipping fixes and workarounds that kept services running.
- Built backend APIs and frontend enhancements in a JavaScript/TypeScript stack while resolving complex software issues.
- Collaborated with cross-functional teammates in an Agile workflow, including code reviews and release support.

Sparrowhawk System, Pune | Junior Full Stack Developer | 04/2023 - 01/2025

- Integrated tRPC and Prisma into a Next.js application and reworked Prisma models, cutting query times by 40% and improving overall app performance by 25%.
- Delivered six new frontend features with React and Material UI, improving user engagement by 30% across platforms after launch.

Microsoft, Pune | Engage Mentorship Program | 06/2021 - 08/2021

- Built a collaboration app with screen sharing, audio/video switching and chat, applying Agile and CI/CD practices that cut time-to-market by 20% and raised engagement by 30%.

PROJECTS

DoctorMy - Healthcare Appointment Platform (Link) | React, Node.js, JWT, Tailwind CSS

- Built a full-stack appointment booking platform covering 20+ medical specialties, with secure JWT authentication, protected routes and interactive doctor profiles.
- Designed the REST API and data layer for real-time booking, and improved page load time by 40% through lazy loading and code splitting.
- Deployed on Vercel with a responsive, animated UI built with Framer Motion.

EDUCATION

Army Institute of Technology, Pune | B.E. in Information Technology | 07/2019 - 06/2023 | CGPA: 8.80/10

AWARDS & CERTIFICATES

- Mentor at Scaler Academy: guide students and professionals on coding best practices and career development.
